

Thinking inside the box

The multi-functional, low cost solution for management of bookable workspaces

- Flexible display and LED modes to suit all types of workspace including desks, huddle spaces and rooms
- Thin client coded device with no operating system to minimize security threats - zero maintenance and central server management
- Latest 3.12" OLED screen for a clear, bright display combined with simple touch pad control
- Future proofed multi-frequency RFID reader, supporting over 64 different standards for optional authorized access
- Managed by the tried and trusted ResourceXpress server technology for fully scalable workspace control - on demand booking, authorized check-in and a solution to the no-show problem
- Expansion capability for sensor driven auto check-in, auto check-out and presence monitoring

The secure and flexible solution for management of bookable workspaces

One device for many uses, Qubi3 optimizes workspace usage and lowers real estate overheads. Mount Qubi3 on your desktop, partition, inside/outside a meeting room or in any huddle space for clear status indication and reservation on the fly.

Features

- Connects via a ResourceXpress server (on-premise, SaaS or private cloud) to MS Outlook/Exchange, Office 365, IBM (Lotus) Notes, G-Suite Calendar and a range of other supported booking systems. Also works with ResourceXpress in non-integrated (local) mode
- Interactive modes for check-in, check-out, extend and instant, on-demand booking – all simply carried out using RFID cards or tags in authorized mode or touch controls if authorization is not required
- Standard Mifare RFID reader with optional upgrade for a range of other card standards
- Simple and secure low cost alternative to traditional meeting room touch screen
- 5 way routing cable exit options for optimum concealment of power cables when mounting on a desk, workspace divider or outside a meeting room wall (glass or partition)
- Wi-Fi connectivity with secure HTTPS option

Technical

- Power in via standard micro USB port
- Network - WLAN 802.11 b/g/n, single band 2.4GHz
- Low profile 5.1" x 3.9" x 1" (130 x 100 x 25mm)
- Available with 13.56MHz and/or 125KHz RFID readers
- No virus or malware vulnerabilities as uses a hard coded application with no operating system
- Requires a local or cloud based ResourceXpress server
- Supports standard DHCP or static IP addressing over HTTP or HTTPS (SSL)
